

High Road Academy of Howard County is where students who require additional academic support are able to uncover their potential through individualized learning that goes beyond what most classrooms can offer. In our private day school, we meet each student where they are as a unique learner.

Overview

Grade Levels Served: 3-12

Students Served: Serving students with Autism Spectrum Disorder, Emotional Disability, Hearing Impairment, Intellectual Disability, Multiple Disabilities, Orthopedic Impairment, Other Health Impairments, Specific Learning Disability, Speech and Language Impairment, Traumatic Brain Injury, and Visual Impairment.

Support. Prevent. Connect: Our Integrated Multi-Tiered Systems of Support are the foundational pillars of everything we do. We support each student's needs; we prevent barriers to learning; and we connect with students, staff, and stakeholders to help ensure the best outcomes in school and life.

Staff: Our educators shine a positive light on students, uncover the unique learner within, and make a lasting impact.

Our intensive, evidence-based classroom models are designed to set every student up for success. Through individualized support, small class sizes, and high staff-to-student ratios, we create an environment where students can thrive both academically and emotionally.

At High Road Academy, we understand that each student has unique needs, which is why we prioritize individualized support plans to ensure that every student receives the attention they deserve. Our program focuses not only on academic progress but also on social and emotional development, preparing students for a successful future where they can shine- at school, at home, and in the community.

Learning Pathways

Spark: Academic and Behavior Support

We inspire students to achieve academic success by helping them strengthen their behavioral and learning abilities through a district-aligned curriculum designed to lead the way to less restrictive settings.

Spring: Instruction and Life Skills

We support students with emotional and mild cognitive disabilities through a tailored combination of academic and behavioral support to help ensure sustainable growth in more traditional classrooms.
