

Sierra School of South Mountain is where students with academic, emotional, and behavioral needs uncover their potential through individualized learning that goes beyond what most classrooms can offer. In our private day schools, we meet each student where they are.

Smaller class sizes and high-quality, student-centered instruction allow our teachers, therapists and staff to build strong connections with each student in nurturing, respectful, structured, and positive learning environments.

Drawing from a comprehensive range of specialized services, Sierra School educators implement an Individualized Education Program (IEP) for each student to shine—at school, at home, and in the community.

Spring: Instruction and Life Skills

We support students with emotional and mild cognitive disabilities through a tailored combination of academic and behavioral support to help ensure sustainable growth in more traditional classrooms.
